EARLY HISTORY OF HONG KONG

The history of the Hong Kong community is really much longer than the history of the Colony itself. The Colony exists as an emporium for foreign trade with South China, and was founded in 1841, when the firms that had previously found a more or less insecure foothold in Macao or Canton began to migrate to the island where they could carry on their business under conditions of their own making, and under the protection of the British fleet.

It was in the early years of the 17th century that the Honourable East India Company first began to take an interest in Far Eastern trade. Japan had not then closed its ports to foreigners, and it was at Firando in Japan that the Company established its first factory; others followed at Tywan in Formosa, and then at Amoy. At that time any trade done with Southern China was done through the Portuguese merchants of Macao. The Ming Dynasty, which was then nearing the end of its long reign, was favourable to foreign trade, and an attempt was made to establish a branch of the Honourable Company at Macao. The difficulty that arose was not from the Chinese but from the merchants of Macao, who were reluctant to admit a competitor that might become too powerful. As a matter of fact the history of the Company's two centuries of trading under all sorts of restrictions, some of them distinctly undignified, showed none of the masterful diplomacy which distinguished the policy of the Board of Directors in India, and from 1625 to 1834 trade was carried on in spite of restrictions and exactions which gradually became systematised into a monopoly on the Chinese side which was as exclusive as the Company's own.

The cancellation of the Company's Charter was one of the many results of the Reform Act which threw open Parliament to the classes that were rising to power and wealth through the Industrial Revolution, represented by merchants whose interests and prejudices were all in favour of the most complete free trade procurable, and it was not long before the "interlopers," who had found means to do a considerable amount of business under the old system, began to demand a base of operations where they would not be subject to the whims of officials whose sole object was either to hamper their operation or to extract profit from them.

From the very first the island of Hong Kong, which was eventually chosen, and which had at that time not even a name, was developed on a basis of free trade and equal opportunities for all, and the tradition has lasted down to the present time.

At first the intention of the Home Government was to make the Governor of Hong Kong their representative for all purposes in the conduct of diplomacy and business with China and the Far East; but the system was found to work unsatisfactorily, and, after some thirty years, the functions of local Government were separated from those of wider policy, and an Embassy was established at Peking.

The growth of trade made it necessary to acquire a larger strip of land on the Kowloon side of the harbour, and some two square miles, including an island in the harbour called "Stonecutters," were leased in perpetuity. The island is now reserved purely for military purposes, but the added territory is to-day a busy dock area and thickly populated.

THE COLONY OF HONG KONG

Prior to 1841 there was no recognised name for the island of Hong Kong. The anchorage at Aberdeen was known to sailors as Heung Kong. The Chinese characters representing the name may be translated by "Fragrant Streams" or "Fragrant Harbour." Another possible rendering is "Heung's Harbour," the haunt

of a notorious character named Heung.

Kowloon is the anglicised form of the Chinese Kau Lung (nine dragons). This name is derived from the ridge of nine hills which form a rampart along the northern side of the harbour and seem to guard the approach to China.

Hong Kong became a British Colony in 1841. In 1860 about two square miles of the mainland of Kowloon and Stonecutters' Island were leased in perpetuity. The district called the "New Territory" was leased to Great Britain in 1898 for a period of 99 years. It covers 276 square miles and include Lan Tao Island and the waters of the farther shores of Deep Bay and Mirs Bay.

A book entitled "China," published in 1847, contains a chapter with the following heading: "Hong Kong, its position, prospects, character and utter worthlessness from every point of view to England." To-day one laughs at that prophecy. However when it was written there seemed to be reason for such a gloomy forboding for the place had an unenviable reputation for rain-storms, typhoons, pirates, poisoners, malaria, dysentery, etc., and in England contempt for the new colony was expressed in the then popular song, "You may go to Hong Kong for me."

To-day this formerly despised possession is one of world's busiest ports, and for an eastern city is remarkably clean, peaceable and healthy. As one writer remarks: "Hong Kong is a splendid example of what can be accomplished energy and capital associated with the courage and restraint that go hand-in-hand with British colonisation. Ninety-six years of patient administration by 21 Governors and 11 Administrators have brought Hong Kong into the front rank of the world's commerce. This happy achievement is due in no small measure to the harmonious working of two such different peoples as the British and the Chinese."

Hong Kong has taken its place in the world-wide system of Civil Aviation and Airlines from all parts of the world meet at the air-port, known as Kai Tak, in Kowloon. In the year 1948, the passenger traffic dealt with at Kai Tak was 7,144 aircraft of all countries; for the same period the total freight and mail handled at Kai Tak, totalled 2,053,375 kgs aside from the airfield, there is adjoining, a flying-boat base. The chief industries are the building and repairing of ships and the making

of rope, cement, glass, cigarettes, cigars, matches, paper, woollen, enamel and textile.

The best time to visit Hong Kong is during the winter months, when British conditions are enjoyed. Between March and May the weather is apt to be changeable and clammy, and from May till the end of September it is too hot and humid to be comfortable. The shade temperature ranges from 50 degree F. in January and February to 90 degree F. in the Summer months, and greater extremes are known. The average shade temperature for the year is slightly over 70 degree F. Geologically, Hong Kong cannot be declared interesting, but it holds great attractions for the botanist and the entomologist. Its scenery is superb and there are few prettier drives than the one round the island or that on the mainland from Kowloon to Tai Po or Kowloon to Castle Peak. There are also glorious rambles to be had in winter on the island and in the mainland hills.

Few places can show such a variety of games and recreations. Golf, tennis and yachting are indulged in all the year round; football and Rugby and Association), cricket and hockey are played in the Winter months; and during Summer lawn bowls, lawn tennis, baseball and perfect bathing are enjoyed. The Jockey Club hold a five-day Annual Meeting every February in addition to thirteen "Extra Meetings" throughout the year.

In Hong Kong East meets West. The latest from London, Paris and New York can be found cheek by jow! with all the alluring work of the Orient. If one wishes to travel in town one may do so by motor-car, taxi, bus, tram, rickshaw or sedan chair, while on the harbour motorboats, ferries, launches and sampans are at one's disposal.

The water is pure, the food good and plentiful and hotel and boarding-house accommodation first class. Hong Kong boasts a University, secondary and primary schools, numerous places of worship, up-to-date hospitals, modern cinema houses, and the finest golf course (at Fanling, in the New Territories) in the Far East.

LIST OF GOVERNORS.

The following is a list of those who have administered the Government from the date Hong Kong became a Crown Colony:—

1841	Capt. Charles Elliott, R.N. (Administrator)	1898	Maj.-Gen. Wilsone Black, C.B. (Administrator)
1843	Sir Henry Pottinger, Bart., G.C.B.	1898	Sir Henry Arthur Blake, G.C.M.G.

The Government is administered by a Governor, aided by an Executive Council of five officials and six unofficials. The Legislative Council is presided over by the Governor, and is composed of the Officer Commanding the Troops, the Colonial Secretary, the Attorney-General, the Financial Secretary, the Secretary for Chinese Affairs, the Director of Public Works, the Director of Medical & Sanitary Services, the Superintendent of Imports & Exports, and eight unofficial members, of whom is elected by the Chamber of Commerce and another by the Justices of the Peace. The remaining six, three of whom are of Chinese race but British nationality, are appointed by the Government.

The new constitution, which it is expected will be introduced before the end of this year, provides for a popularity elected Municipal Council, and for a Legislative Council which will include eight Unofficials and only seven Official Members. Four of the Unofficials will be nominated by the Governor and the remainder will be elected by the Justices of the Peace, the Chamber of Commerce and two by the Municipal Council.

A detailed black and white map of Hong Kong and New Territories. The map shows the Kowloon Peninsula, New Territories, and the surrounding waters including Victoria Harbour, Tolo Harbour, and the New Territories Harbour. Key locations labeled include Kowloon, Tolo Harbour, New Territories, and various islands and bays. The map is oriented with North at the top. The title "HONG KONG AND NEW TERRITORY" is printed vertically on the right side.

TABLE WATER

Duty is payable at forty-eight cents per gallon.

LOCAL STORM SIGNAL CODE.

(As approved at the Conference on Storm Warning Procedures held in Manila, May, 1949, for use in Hong Kong as from 1st January, 1950).

	NUMBER	DAY SIGNAL	NIGHT SIGNAL	MEANING
STANDBY	1		White White White	A depression or typhoon exists which may affect the locality.
GALE	5	+ 	White Green Green	Gale (wind speed 34 knots and upwards) expected from the NW quadrant.
	6	+ 	Green White White	Gale (wind speed 34 knots and upwards) expected from the SW quadrant.
	7	+ 	Green Green White	Gale (wind speed 34 knots and upwards) expected from the NE quadrant.
	8	+ 	White White Green	Gale (wind speed 34 knots and upwards) expected from the SE quadrant.
INCREASING GALE	9		Green Green Green	Gale expected to increase.
TYPHOON	10	+ 	Red Green Red	Hurricane or typhoon wind (speed 64 knots and upwards) any direction.

STRONG WIND SIGNAL

+ 	White Green White	Strong wind (speed 22-33 knots).
---	-------------------------	----------------------------------

SIGNALS USED AT SUPPLEMENTARY STATIONS.

+ 	Green Green	Strong wind (speed 22-33 knots).
Red 	Red Green	No. 1 hoisted in Hong Kong harbour.
Red 	Red Red	Nos. 5, 6, 7, 8, 9 or 10 hoisted in Hong Kong harbour.

+ International signals.

EXPLANATORY NOTES.

Signal No. 1 is a cautionary or "stand by" signal, and does not necessarily imply bad weather.

Signals Nos. 5 to 8 convey definite warning of expected gales from different directions. A "gale" is equivalent to a mean wind velocity of 34-40 knots, but gusts may reach 60 knots. These four signals are therefore of equal significance as regards wind velocity, but are for different wind directions.

Signal No. 9 will not necessarily be used if conditions warrant the hoisting of No. 10 as soon as it is evident that the gale will increase.

Signals will be lowered when danger is considered to be over.

The Black Ball (strong wind warning signal) is primarily intended to warn small craft of the onset of strong winds which are not expected to reach gale force. It may be hoisted to give warning of strong monsoon winds in winter, or of winds due to tropical depressions of small intensity.

THE CHINA SEAS NON-LOCAL STORM SIGNAL CODE FOR VISUAL STORM WARNINGS

(As amended by agreement between the Meteorological Service of Indo China, the Central Weather Bureau of China, and the Royal Observatory, Hong Kong, and used from 1st January, 1950).

1. The following ten symbols are used:—

indicating the figures

1 2 3 4 5 6 7 8 9 0

2. These signals are hoisted at the mast head and at the yard-arms of a storm signal mast, and have the following significance:—

- (a) 1 symbol at the mast head showing the time at which the centre of a tropical cyclone was in the position indicated (Table I).
- (b) 4 symbols at one yard-arm showing the position of the centre. The two upper symbols give by their corresponding numbers the latitude in degrees; the two lower symbols the longitude in degrees (initial 1 omitted for longitudes of 100° or over).
- (c) 3 symbols at the other yard-arm. The two upper symbols of this group show the speed and direction of motion of the centre at the time of observation, or, alternatively, certain conditions (Table II).

The lowest symbol of this group shows the intensity of this cyclone, together with the degree of accuracy with which the centre has been located (Table III). The latter is specified as the radius of the circle whose centre is shown by the latitude and longitude. Thus the position indicated by the latitude and longitude signals does not purport to be the exact position of the storm centre, but merely the centre of a circle of specified radius within which the centre of the storm is believed to lie.

TABLE I.—SINGLE SYMBOL AT MASTHEAD

Time of observation.

HONGKONG'S FUNICULAR RAILWAY

(THE PEAK TRAMWAYS)

TAKES ONE **1,400** FEET ABOVE SEA-LEVEL
IN
EIGHT MINUTES
TO VIEW

*The Most Wonderful
Panorama in the world*

FAST — SAFE — UNIQUE — CHEAP

Operated since 1888, the Peak Trams offer one of the safest ways of travelling. The trams are fitted with independent wire cables, and are controlled by an electrical haulage equipment at the Upper Terminus. This equipment is operated by an engineer who can see from a track indicator exactly where the trams are at any time.

In the course of the journey the brakesman communicates with the Engine Room by a system of signals, and the Engineer moves the trams as required by the brakesman. In the event of an extreme urgency, it is only necessary for the brakesman to release his hold of the Safety Brake Bar and this action automatically closes two powerful jaws, which are fitted at each end of the chassis, onto the centre track rail which is fastened firmly to the track bed. This powerful braking system will stop the tram within eight feet on the steepest gradient of the track.

PEAK TRAMWAYS CO., LTD.

DEFINITION OF PLAIN LANGUAGE

1. Plain language is that which presents an intelligible meaning in one or more of the languages admitted for international telegraph correspondence, each word and each expression having the meaning normally assigned to it in the language to which it belongs.

2. By telegrams in plain language are meant those of which the text is wholly in plain language. The character of a telegram in plain language is not changed by the presence of:—

- (a) Numbers written in letters or figures, groups composed either of letters or of figures provided that these numbers and groups have no secret meaning;
- (b) Arbitrary or abbreviated addresses;
- (c) Commercial marks, trade marks, reference numbers or indications and expressions provided they are shown in a catalogue or price list available to the public or shown in a bill of lading or similar document;
- (d) Abbreviated expressions in current use in ordinary or commercial correspondence, such as fob, cif, svp or any similar expression;
- (e) A single check word or check number placed at the beginning of the text and not exceeding five letters or five figures in length.

3. Languages admitted in plain language telegrams are those used in the country of origin and of destination. Additionally, most modern languages are also admitted. The text of telegrams originating in or destined for China may be expressed wholly by means of groups of four figures taken from the official telegraph dictionary of the Chinese Administration.

DEFINITION OF SECRET LANGUAGE

Secret Language is formed of:—

- a. Artificial words composed exclusively of letters; such words must not exceed five letters in length;
- b. Real words not used with the meaning normally assigned to them in the language to which they belong and consequently not forming intelligible phrases in one or more of the languages admitted for telegraph correspondence in plain language;
- c. Arabic figures, groups or series of Arabic figures having a secret meaning;
- d. Words, names, expressions or combinations of letters not fulfilling the conditions laid down for plain language.
- e. A mixture of words and expressions mentioned in a. b. c. and d.

ENQUIRIES

All enquiries regarding received or transmitted telegrams must be accompanied by the telegram itself or by the receipt for the transmitted telegram and should be made at one or other of the Company's counters or at the office of the Traffic Agent.

ABRIDGED RULES

1. ORDINARY TELEGRAMS.

Rates as shown subject to a minimum charge as for 5 words. The text of an ordinary telegram may be written in Plain Language or in Secret Language or in a mixture of both.

PLAIN LANGUAGE. Telegrams written entirely in plain language are counted at the rate of 15 letters to the word. Commercial marks, exchange quotations etc., are counted at the rate of 5 characters to the word.

SECRET LANGUAGE. Telegrams written entirely in secret language are counted at the rate of 5 letters or characters to the word.

MIXED LANGUAGE. Telegrams written in a mixture of Plain and Secret languages are governed by the rules of counting for Plain and Secret language above.

2. URGENT TELEGRAMS.

Priority of transmission and of delivery may be obtained to places where urgent telegrams are admitted by writing before the address the paid service instruction "Urgent", which is counted and charged for as one word. The rate for urgent telegrams is double ordinary rate.

3. LETTER TELEGRAMS.

Rates as shown subject to a minimum charge as for 22 words. The text of a letter telegram must be written in Plain language. Letter telegrams must bear before the address the paid service instruction "LT" which is counted and charged for as one word. The delivery of letter telegrams shall take place after 08.00 o'clock local time, on the morning after the date of deposit.

4. SOCIAL TELEGRAMS (Admitted within the British Commonwealth only).

Rates as shown subject to a minimum charge as for 10 words. The text of a social telegram must be written in Plain Language and be of a social nature.

Social telegrams must bear before the address the service instruction "GLT" which is not charged for but is counted as one word in the number of words shown in the preamble.

Social telegrams may be addressed to a registered address.

5. PRESS TELEGRAMS.

Rates and conditions on application.

6. RADIOTELEGRAMS (Indirect Service).

Telegrams exchanged with ships at sea through Radiotelegraph Coast Stations are subject to the normal telegraph charges to the country in which the coast station is situated, increased by the respective coast and ship charges for the radio transmission. Letter Telegrams are not admitted.

7. PREPAID REPLIES.

The sender of a telegram may prepay a reply from his correspondent in those countries which admit this facility by writing before the address the paid service instruction "Reply Paid" or "RP" followed by the amount prepaid for the reply. This instruction "PRx" is counted and charged for as one word.

A reply paid voucher is valid for a period of three months from the date of issue to any destination.

8. REPEATED OR COLLATED TELEGRAMS.

Repetition of a telegram may be obtained on payment of an additional charge equal to one-half of the full ordinary rate to the same destination and by inserting before the address the paid service instruction "TC" which is counted and charged for as one word.

GENERAL POST OFFICE OVERSEAS AIR MAIL SERVICES

GENERAL INFORMATION:

In general the limits of weight and dimensions and other conditions (but not postage rates) prescribed for surface mails apply also to articles intended to be sent by air. The rates, which include postage and air fees, are shown in the tables below.

AIR LETTERS:

Air letter forms impressed with 40 cts. stamps and air mail markings are sold at all post offices. Air letters manufactured by private individuals and concerns and approved by the Postmaster General are accepted for posting after 40 cts. in postage has been affixed. Air letters may not be tendered for registration.

AIR PARCELS:

Parcels for transmission by air are temporarily restricted to countries named in Table 3 where the rates are also given. The general regulations applicable to surface parcels as regards weight limitations, customs declarations, despatch notes, compensation, etc., apply also to air parcels. Insured parcels are not accepted. The blue airmail label must be affixed to the address side of the parcel and to the despatch note if the country of destination requires it.

SECOND CLASS MATTER:

Printed papers, samples, small packets, etc., sent by air must conform to the regulations for such articles, and must be clearly superscribed in the upper left-hand corner of the cover for the particular service intended, namely, "printed matter", "sample", as the case may be. Where there is no specially reduced rate for such articles, they must be prepaid at letter rate.

Table I.—Air Postage Rates for Letters

DESTINATIONS	RATES OF POSTAGE		
	Letters per ½ oz.	Post- cards each	Air Letters
Burma; North Borneo; Malaya	\$0.40	\$0.20	\$0.40
Afghanistan; Anglo-Egyptian Sudan; Arabia; Ceylon; China; Egypt; Guam; India; Indo- China; Iran; Iraq; Japan; Korea; Lebanon; Pakistan; Philippine Islands; Syria; Thailand (Siam); Trans-Jordan	.60	.30	.40
Australia; Eire; Indonesia; Great Britain	.80	.40	.40
Ethiopia; Eritrea; Madagascar; New Zealand; Portuguese East Africa; Reunion; Somali- land (French and Italian); Union of South Africa; All British possessions, protec- torates and mandated territories in or adjacent to Australia, New Zealand and South and East Africa. French Oceania and other South Pacific Islands)	1.00	.50	.40
All European countries (except Great Britain & Eire) including Gibraltar, Malta & Cyprus; Isreal and rest of North and West Africa; Hawaii	1.50	.75	.40
British West Indies, British Honduras and British Guiana; Canada; New Foundland; U.S.A.	2.00	1.00	.40
All other British possessions in or adjacent to the American continent	2.30	1.15	.40
Argentine; Bolivia; Brazil; Dutch & French Guianas; Panama; Paraguay; Uruguay ...	2.50	1.25	.40
All other countries in the continent of America	3.00	1.50	.40

WEIGHTS & MEASURES

TROY WEIGHT

- 24 grains = 1 pwt 12 ounces = 1 pound
20 pwts = 1 ounce
Used for weighing gold, silver and jewels.

APOTHECARIES' WEIGHT

- 20 grains = 1 scruple 8 drams = 1 ounce
8 scruples = 1 dram 12 ounces = 1 pound
The ounce and pound in this are the same as in Troy Weight.

AVOIRDUPOIS WEIGHT

- 27 11-32 grains = 1 dram. 4 quarters = 1 cwt.
16 drams = 1 ounce 2000 lbs = 1 short ton.
16 ounces = 1 pound 2240 lbs = 1 long ton
25 lbs = 1 quarter.

DRY MEASURE

- 2 pints = 1 quart 4 pecks = 1 bushel.
8 quarts = 1 peck. 36 bush. = 1 chaldron.

LIQUID MEASURE

- 4 gills = 1 pint 31½ gallons = 1 barrel.
2 pints = 1 quart 2 barrels = 1 hogshead.

TIME MEASURE

- 60 seconds = 1 minute 24 hours = 1 day
60 minutes = 1 hour 7 days = 1 week
28, 29, 30 or 31 days = 1 calendar month.
(30 days = 1 month in computing interest)
365 days = 1 year. 366 days = 1 leap year.

LONG MEASURE

- 12 inches = 1 foot. 40 rods = 1 furlong
3 feet = 1 yard 8 furlong = 1 sta. mile.
5½ yards = 1 rod. 3 miles = 1 league.

CLOTH MEASURE

- 2½ inches = 1 nail 4 quarters = 1 yard.
4 nails = 1 quarter

SQUARE MEASURE

- 144 sq. inches = 1 sq. foot. 40 sq. rods = 1 rood.
9. sq. feet = 1. sq. yard 4 roods = 1 acre.
30¼ sq. yards = 1. sq. rod. 640 acres = 1. sq. mile.

SURVEYOR'S MEASURE

- 7.92 inches = 1 link 4 rods = 1 chain.
25 links = 1 rod.
10 square chains or 160 square rods = 1 acre.
640 acre = 1 square mile.
36 sq. miles (6 miles sq.) = 1 township.

CUBIC MEASURE

- 1,728 cub. inc. = 1 cub. ft. 128 c. ft. = 1 cord (wool)
27 cubic ft. = 1 cubic yd. 40 c. ft. = 1 ton (shpg.)
2,150.42 cubic inches = 1 standard bushel.
231 cubic inches = 1 standard gallon.
1 cubic foot = about four-fifths of a bushel.

METRIC EQUIVALENTS (LINEAR MEASURE)

1 centimeter = 0.3937 inc.	1 in. 2.54 centimeters.
1 decimeter = 3.937 in	)
= 0.328 feet	)
1 meter = 39.37 inc. =	)
1.0936 yards	)
1 dekam'r = 1,9884 rods.	1 rod = 0.5029 dekam'r.
1 kilometer = 0.62317 m's	1 mile = 1,6093 kilom'r.

SQUARE MEASURE

1 sq. centimeter =	)	1 sq. inch = 6.452 square
0,1550 sq. in.	)	centimeter.
1 sq. decimeter =	)	1 sq. foot = 9,2903
0,1076 square foot	)	square' decimeters.
1 sq. m'r. = 1.196 sq. yd.		1 sq. yd. = 0.8361 sq. m'r.
1 are. = 3,954 sq. rd.		1 sq. rd. = 0.2529 are.
1 hektar = 2.47 acres.		1 acre = 0.4047 hektar.
1 sq. kilometer = 0.386 sq m.		1 sq. m. = 2.59 sq. kilometers.

WEIGHTS

1 gram = 0.03527 ounce	1 ounce = 28.35 grams.
1 kilogram = 2.2046 lbs.	1 lb. = 0.4536 kilogram
1 metric ton = 1.1023	)
English ton	)
	metric ton.

APPROXIMATE METRIC EQUIVALENTS

1 decimeter = 4 inches	(1.06 qt. liquid.
1 meter = 1.1 yard	1 liter (0.9 qt. dry.
1 kilometer = $\frac{5}{8}$ of mile	1 kehtoliter = $2\frac{5}{8}$ bush.
1 hektar = $2\frac{1}{2}$ acres.	1 kilogram = 2 1-5 lbs.
1 stere or cu. meter =	)
$\frac{1}{4}$ of a cord.	)
	1 metric ton = 2.200 lbs.

A CHAIN OF

PROTECTION

THE AMERICAN INTERNATIONAL ASSURANCE COMPANY, LIMITED brings to its policy-holders unique advantages of security. It is an important link in a world-encircling chain of protection, which has been forged by THE AMERICAN INTERNATIONAL GROUP. This GROUP, made up of insurance organizations, operates in NORTH AND SOUTH AMERICA, EUROPE AND THE ORIENT. Through reinsurance agreements, the resources of the entire GROUP lend stability to its affiliated members, and American-trained management brings the advantages of broad experience and proven administrative methods to each.

As its part of this worldwide service, THE AMERICAN INTERNATIONAL ASSURANCE COMPANY offers COMPLETE Life Insurance facilities to the people of HONGKONG AND SOUTHEAST ASIA.

To every policy-holder the COMPANY brings the benefits of American Life Insurance technique coupled with local operation, and, through its affiliation with this great WORLDWIDE organization, offers security SECOND TO NONE!

WHEN YOU THINK OF LIFE INSURANCE THINK OF

"THE AMERICAN INTERNATIONAL!"

**DAVIE, BOAG & CO., LTD. For:—
WESTINGHOUSE REFRIGERATORS**

race bred, high-speed new comer

Britain's latest sporting car, the $1\frac{1}{2}$ litre Jupiter, is designed for fast driving. It accelerates to 60 m.p.h. in approximately 15 seconds, cruises happily at 75 m.p.h. and more. The body of lightweight aluminium is aero-dynamic and gives snug coupé comfort with hood and glass windows up. In its first race, the Le Mans International Grand Prix d'Endurance in June 1950, the Jupiter was first in the $1\frac{1}{2}$ litre class and first again in 1951. The Jupiter was 1st & 2nd in the 1951 Monte Carlo Rally $1\frac{1}{2}$ litre class.

the $1\frac{1}{2}$ litre **JUPITER** made by Jowett

When you
smile in
the mirror...

Are your teeth as white as hers?

Have you smiled into your mirror today? Were your teeth bright—did they sparkle? Or could they be whiter still? Brush your teeth tonight with Pepsodent — because Pepsodent contains Irium, special ingredient which floats away dull film from teeth, gives them a wonderful new sparkle!

THE TOOTHPASTE
WITH IRIUM★

★ Irium is the registered trade mark of Pepsodent Ltd., for a special soluble ingredient that gives greater cleaning power.

P-19

MAKE THIS PEPSODENT
MIRROR TEST

TONIGHT—Smile into your mirror—take a good look at your teeth.

NEXT—Clean your teeth with Pepsodent. Do this morning and evening, for a week.

THEN—Smile into your mirror again. See how a week of Pepsodent makes teeth dazzling white!

... a famous drink of France

The zestful flavour of Dubonnet is like nothing else. No other drink pleases so many palates and has so many uses.

Dubonnet is made by a secret formula that gives it its inimitable flavour and "mixability".

Enjoy Dubonnet straight, or for creating new versions of your favourite mixed drinks.

Dubonnet should always be served well chilled.

DUBONNET STRAIGHT

Original way to serve Dubonnet, and still favourite! Pour well chilled Dubonnet into glass and add twist of lemon peel.

DUBONNET COCKTAIL

½ Dubonnet, ½ gin. Stir with cracked ice. Strain into cocktail glass, add twist of lemon peel.

MERRY WIDOW

½ Dubonnet, ½ dry vermouth. Stir with ice and strain into cocktail glass. Add twist of lemon peel.

DUBONNET AND SHERRY

½ Dubonnet, ½ dry sherry. Add ice cubes. Stir thoroughly and strain into cocktail glass.

DUBONNET

GRAND MIXER

A wire fence...

...A WISE DEFENCE

A wire fence is one of the simplest but wisest defences of valuable property. On duty 24 hours per day, in all weathers, it keeps intruders away and cuts risk of theft and damage.

For property which cannot be fenced Wire Window Guards serve the same fine protective purpose.

Chain Link Wire Netting for Fencing. Sports Enclosures. Gates etc.

Crimped Wire Netting for Window Guards, Machine guards etc.

Manufactured in all sizes and gauges; and installations carried out by:—

WATSON'S CORDIALS

FROM

FINEST FRESH FRUIT

Comfort you can measure

when you fly "Strato" Clipper

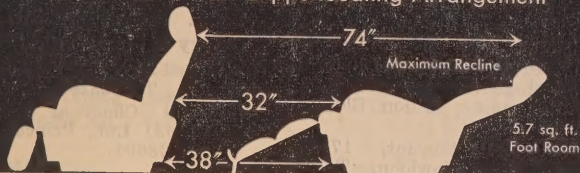

1. MORE LEG ROOM. Pan American's Sleeperettes are spaced further apart . . . give you *twice* the usual leg room. You can stretch way out and still not touch the seat in front!

2. MORE RECLINING ROOM. Pan American's Sleeperettes recline *36% more* than standard airline seats . . . stretch out long as a bed, nearly as flat!

Usual Aircraft Seating Arrangement

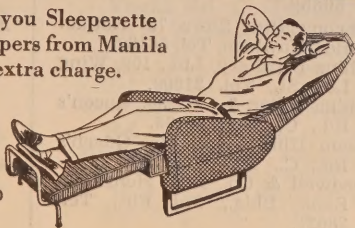

Sleeperette "Strato" Clipper Seating Arrangement

• Only Pan American offers you Sleeperette Service*. On all "Strato" Clippers from Manila or Tokyo to the U.S.A. at no extra charge. Berths are also available—only \$25 extra.

For reservations,

Dear Customer:

re: Paper and Woodpulp

More than 50 years ago the firm which bears my name, and whose senior head I still am, was founded in Hamburg.

The start was a hazardous enterprise. I was poorly equipped and my capital was small. However, Hamburg was then a wonderful trading centre that offered unlimited possibilities to enterprisers of my kind. There were plenty of buyers of everything, for export to all the countries of the world, together with excellent shipping possibilities.

One of my first lines was Woodpulp, and shortly afterwards my Paper Department was founded. These two commodities still form my main lines. As the business volume continued to increase, and Branch Offices had been opened in London (1904) and New York (1907), the Head Office of the firm was for practical reasons transferred to Sweden.

In Gothenburg the firm has grown and expanded its activities considerably. 13 Branch Offices have now been opened in principal cities throughout the world, in my continuous endeavours to attain closer relations with our business friends, and to make better and more direct service available to them.

My colleagues in the business have remained faithful, and they accomplish a very fine collaboration which in many cases has lasted for over 25, 30, 35 and 40 years and still continues. For Paper and Woodpulp there is now a staff of 140 persons at your disposal in the Head Office alone; - and every possible and reliable supplying source, not only in Scandinavia but also throughout Europe, America and Japan, is carefully explored for each individual enquiry, so as always to quote you the best price and quickest delivery.

I wish to use this opportunity to convey my special thanks to our business friends in the Far East, which has long been one of our traditional markets, and to express my gratitude for the great confidence and good-will which they have always shown me. I trust that we shall be able to continue and to expand our relations in the years to come.

Yours faithfully,

Elof Hansson
